FOREWORD

TO THE CLASS OF 1917:

TEN years have elapsed since the Class has taken stock of the achievements of its members. During that decade many things have happened to us: we have lost 23 members by death since 1927; the depression has produced many more changes of occupation than is usual in a class which has been out of college for twenty years; our financial situation, while still satisfactory, has required a change in policy in order to meet altered conditions, as you will see from the letter of the First Marshal (p. xi).

This is the first Class Report to be financed by individual contributions rather than by an appropriation from the Class Treasury. That a majority of our members wished a report at this time seems clear from the fact that a single appeal brought in 301 contributions, together with a sum of money sufficient to pay for the cost of collecting the information and publishing the present volume.

Of the 606 living members of 1917 we have heard from 532. Of the 74 members of the Class from whom we have not heard, 27 are definitely listed as "lost." The addresses of the remaining 47 who did not reply to three requests, including a special delivery letter, appear to be good, since mail addressed to them is not returned. As you look over the report you will note that the "lost" men are indicated by a dagger (†) prefixed to their names. If anyone has any information concerning them the Secretary will be most grateful if he will communicate it to him.

Contrary to our usual custom this report appears before rather than after the reunion. Therefore, the Secretary would record the great debt of appreciation which the Class owes to the enthusiasm and energy of Clem Stodder and his efficient Committee on the Twentieth Reunion. Their efforts promise that it will be the most successful we have yet held.

The Secretary would express his gratitude to those members of

the Class who assisted him in securing histories from men who failed to answer his original letter, and in particular to David W. Bailey, of the Harvard Alumni Directory, whose assistance in preparing this report has been invaluable.

EDWARD ALLEN WHITNEY,
Secretary.

A LETTER FROM THE FIRST MARSHAL

TO MEMBERS OF THE CLASS:

OUR Twenty-Fifth Anniversary is a little more than five years off and with it our obligation to present $100,000 to the University. For this all of us are interested both in the present status of our Class Treasury and how we plan to meet our coming responsibility.

Looking back, 1917 made an early start toward our $100,000 gift. "Social Security" was introduced to the Class eighteen years before it was offered by the New Deal. Our "Social Security" plank was for 100 members to take out $1,000 life insurance policies, maturing in 1942. The abrupt ending of our Senior year by the War handicapped our young hopes. Only a few policies were written and the majority of those lapsed during the War.

Our second effort was through annual Class dues which, after adding but slightly to the fund, was succeeded in 1923 by the Warburg Certificate Plan, described in our Sexennial Report as follows:

"All annual dues are to be dispensed with and a certificate of full payment is to be issued to any member of the Class who pays into the treasury during the current calendar year the sum of $100. After the close of 1923, interest will be compounded at 6 per cent, so that the price of a full paid certificate during 1924 will be $106 and so on according to the schedule attached below. From this schedule it appears that a man who pays now, pays $100, whereas when he pays in 1933 he will have to pay $181 and one who waits until the twenty-fifth reunion in 1942 will pay $308.

1923—$100.	1927—$127.	1931—$161.
1924— 106.	1928— 135.	1932— 171.
1925— 113.	1929— 143.	1933— 181.
1926— 120.	1930— 152.	1934— 192.

1935—$204.	1938—$243.	1941—$290.
1936— 216.	1939— 258.	1942— 308.
1937— 229.	1940— 274.	

"These figures will provide the necessary $100,000 with a slight surplus if half of the Class pay up at any time during the next nineteen years. If the entire Class should pay the plan would provide about $200,000."

Four years later in our Decennial Report our Treasurer writes:

"Since the last report, made at the time of our Sexennial Reunion in 1923, the plan adopted at that time has worked very satisfactorily. Eighty-nine members have paid during these four years, resulting in a collection of $9,186.53. . . . Under the plan the Treasurer (J. P. Warburg) must produce 6 per cent interest on amounts collected. So far this figure has been substantially exceeded, with the result that we have at the present time $8,668.82 net resources . . . it is not the intention of the Treasurer to make any concerted drive at the present time, since it is more in his interest to have the bulk of the payments come in later at the higher figures, than to have them come in now at the lower figures, thus placing upon him the burden of producing 6 per cent compound interest on the amounts collected."

In 1932 an important modification of the Warburg plan was made. The Class Committee released our Treasurer from his personal guarantee of 6 per cent compound interest on certificates taken up *after* July 1, 1932. All certificates subscribed to prior to that date still carry the original guarantee of 6 per cent compounded to maturity to 1942.

The Class Committee, furthermore, decided in June, 1936, to make the Harvard Fund the depositary for money this far collected, and instructed our Treasurer to turn over all Class money to the Harvard Fund.

Ninety-one members contributed under the Warburg plan $9,500.00. From this amount $4,000.00 was used to liquidate the deficit incurred for our graduation exercises. The remaining $5,500.00 com-

pounded at 6 per cent interest to June 1, 1942, will total $16,640.58. This amount is guaranteed in full by James P. Warburg.

A second source of revenue toward our Twenty-Fifth is subscriptions to the Harvard Fund. All may not realize that gifts made by members of 1917 to the Harvard Fund are credited (with interest) to our Twenty-Fifth Anniversary gift. To date 1917 has subscribed to the Harvard Fund $16,169.83. Interest is compounded as earned by the Fund which has averaged to date somewhat over 4 per cent. This sum (assuming 4 per cent compound interest) will amount to $20,347.37 in 1942.

Now to the future, and our plans for raising the remaining $63,000.00 of the $100,000 gift.* From the foregoing we have, obviously, two sources from which our quota should be obtained: Through the sale of Class Certificates—subscriptions from 50 per cent of the Class will accomplish our goal—and through annual gifts to the Harvard Fund.

As to the first of these, now that the depression is behind us, our Treasurer is planning to make a concerted drive for certificate purchasers from those who have not as yet subscribed. If you have not already bought your certificate, do so at the earliest possible moment.

Supplementing the Treasurer's certificate campaign, all members of the Class are urged to assist in increasing the number of annual

*The original sum to be raised was $150,000, reduced by the University in 1932 to $100,000.

subscriptions to the Harvard Fund, which as previously said, are credited with interest to our Twenty-Fifth total. As Laurence Lombard, Harvard Fund Agent for the Class, wrote last July, "Twenty Dollars per man, per year, for the next six years, given to the Harvard Fund, alone will make up our $100,000." This, of course, is exclusive of revenue realized from the sale of additional Class Certificates.

Every member of 1917, I hope, recognizes the task before us. Let each of us do two things: First, buy your Class Certificate, if you haven't already done so. Second, subscribe each year generously to the Harvard Fund. If we all take these two steps the burden of raising our $100,000 will be evenly distributed throughout the Class, and our gift can be rightfully called the gift of 1917.

RICHARD HARTE

CONCERNING THE HARVARD FUND

IT has long been the custom for Harvard classes at the time of their Twenty-Fifth Reunion to make a substantial gift to the College. The size of these gifts has in recent years been reduced from $150,000 to $100,000.

Our own Class adopted in 1923 a plan for the primary purpose of raising the Twenty-Fifth Anniversary Gift to the College. (For detailed description of plan see preceding report of Richard Harte.) Contributions under this plan, together with interest, will amount to almost $17,000 in 1942.

In 1926 the Harvard Fund was started for the purpose of raising, through annual contributions from graduates, unrestricted funds for the use of the University as only a small percentage of the University's income is really free and available for any University purpose. Since the start of the Harvard Fund it has been the practice to permit contributions to this Fund to be credited toward the Twenty-Fifth Anniversary Gift of the classes.

Our contributions to the Harvard Fund to date with interest at the rate of 4 per cent compounded annually will amount to approximately $22,000 by 1942.

This means that between these two funds we already have $40,000 in sight.

We are now twenty years out of College. Let us appraise the situation in the light of our experience. In our thoughtful moments I think most of us believe in the importance of Harvard to the future development of America. All who have read President Conant's last two annual reports also appreciate the necessity of unrestricted funds to enable Harvard to do its best job. Let us do our share in supplying these funds.

A study of the giving of our Class convinces me that the prin-

cipal obstacle that a Class Agent has to overcome is inertia. Suggestions as to how to overcome this are welcome.

It is my thought that the Harvard Fund can be used as a means of making our Twenty-Fifth Anniversary Gift a real Class Gift contributed to by practically all the members of the Class. By making these contributions annually during the next five years, the raising of this fund should be made easy and through its raising our interest in the College increased.

LAURENCE M. LOMBARD,
Class Agent.

IN MEMORIAM

"They shall not grow old, as we that
are left grow old;
Age shall not weary them, nor the
years condemn.
At the going down of the sun and in
the morning
We shall remember them."
